Don't Miss Your Once-a-Decade Chance

It's not too late to respond to the 2020 Census. Every response matters and helps ensure an accurate count. Census data informs funding for health care, public transportation, schools, and job assistance programs. Over the next decade, lawmakers and many others will use 2020 Census data to make critical decisions about community services in your area. The results of this once-a-decade count determine the number of seats each state has in the U.S. House of Representatives. They are also used to draw congressional and state legislative districts.

Your community's future will be shaped by your census response. The time is now—don't risk losing these critical benefits and don't wait to be counted!

Rensselaerville's 2020 Census response rate is only about 39 percent compared to the national average of 63 percent, New York is at 59 percent and Albany County is at 63 percent.

Please take a few moments to fill out the Census. It can be done online, by phone or on the paper questionnaire you've received.
